Summary

I am a Master's in Computer Applications student with a solid foundation in web development, data structures, and algorithms. I have hands-on experience in building full-stack applications using technologies like Node.js, Express.js, MongoDB, and React.js. My projects demonstrate my ability to develop interactive and responsive web applications, along with secure backend systems featuring user authentication and role-based access control.

Education

Lovely Professional University , Master in Computer Application	Aug 2023 – May 2025
• CGPA: 6.77	
Shri Giriraj Maharaj , Bachelor in Computer Science	Aug 2019 – June 2022
• CGPA: 6.74	

Certificates

Data Structure and Algorithm(DSA) : Codehelp	Feb 14, 2024
React : Cypherschool	March 5, 2025

Achievements

A coding-focused Instagram page with 30,000+ followers. Created engaging content on DSA, web dev, and programming tips. Designed visual explanations using tools like Canva and VS Code.

Projects

Blog Application

Developed a full-stack blog application using Node.js, Express, and MongoDB for backend functionality. Implemented user authentication with JWT tokens, password hashing, and cookie-based sessions. Designed RESTful routes for blog creation, comments, and user signup/login using MVC architecture. Integrated file uploads with Multer for blog cover images and EJS templating for dynamic frontend rendering. Built role-based access control and middleware for token validation to protect routes

URL Shortener Web App

Developed a full-stack URL shortening service with secure user authentication using JWT and cookies. Implemented short URL generation, click analytics, and visit tracking using MongoDB. Enabled user-specific dashboards showing all generated short links with usage stats. Built modular backend architecture with MVC pattern and clean route separation. Created dynamic EJS-based UI with form handling, validation, and session-aware rendering.

Technologies

Languages: C++, Python, JavaScript, HTML, CSS, NOSQL

Technologies: React JS, Express JS, Node JS, Git, GitHub

Soft Skills: Data Structures and Algorithms, Problem-Solving, Responsive Web Design
