SKILLS

- **Languages:** C++, Python, JavaScript
- **GenAI/ML Technologies:** LLM models(Llama2, Mistral, OpenAI)
- **Frameworks:** React.js, Next JS, TensorFlow, LangGraph, LangChain, Streamlit
- **Database:** MongoDB, ChromaDB, FAISS
- **Backend:** FastAPI, Express JS, NodeJS
- **Version control:** Git, GitHub, Docker, Linux, Postman
- **Soft Skills:** Creative, Versatile, Communication

PROJECTS

Multi-Agent Workout App

May 2025 - Aug 2025

- Built a multi-agent AI app for personalized fitness plans based on user goals..
- Designed independent agents with conditional routing mechanisms and role-based prompt structures.
- Allowed users to input form details and receive tailored workout routines along with diet recommendations.
- Utilized JSON-driven workflow definitions to replicate real-world conversations and task distribution.
- Enabled users to submit form data and receive customized workout and diet suggestions.

Tech stack: Python, LangChain, OpenAI API, JSON, Streamlit, Multi-agent architecture

Blogify Application :

<https://blogify-dq2h.vercel.app/>

Sep 2024 - Jan 2025

- Integrated AI-powered blog summarization and intelligent search , enhancing user experience with instant insights And relevant content discovery.
- A full-stack blog system with secure authentication (register, login, update, delete) using NextAuth.js JWT.
- Implemented advanced client-side caching and state synchronization using SWR, mutate, and optimistic UI updates ensuring instant real-time profile updates (Likes, Dislikes, Views) through session management, and reduced server load.
- Implemented CRUD operations with MongoDB, ensuring reliable and efficient data management.

Tech stack: Next.js, MongoDB, JWT

Doc Reader Chatbot

Feb 2024 - July 2024

Developed a chatbot application which takes plain text, document, pdf as input and answers the user query.

- Used the Python for core logic and integration with OpenAI APIs.
- Split the text into manageable sections for efficient querying.
- Used the LLM to identify relevant sections of the document that match user's query.
- Extracted specific answers from the identified sections using natural language understanding capabilities of the LLM.

Tech stack: LLM, Python, OpenAI

CERTIFICATES

Data Structure and Algorithm(DSA)

Feb 2024

CodeHelp - <https://drive.google.com/file/d/1ZTECnuP7efIcB-UPjAbiGJehD3mgdenQ/view?usp=sharing>

React JS

Cypherschool

March 2025

EDUCATION

Lovely Professional University

Jalandhar, Punjab

Master of Computer Application; CGPA: 6.77

August 2023 – May 2025

Shri Giriraj Mahara

Mathura, Uttar Pradesh

Bachelor of Computer science; CGPA: 6.74

August 2019 - March 2022

Shri Ji Baba Saraswati inter college

Mathura, Uttar Pradesh

12th with Science Percentage : 70%
